## CHINA IN WAR AGAINST GERMANY SAYS WASHINGTON REPORT

### La Follette Leads Attack on "Armed Neutrality" Until 12:45 A. M.

#### COAL OIL CANS ONLY CLUE TO NIGHT FIRES

Waco Trucks Called to Three Fires and One False Alarm.

#### HINT INCENDIARISM IN ONE

Com. Richards Pleads for New Fire Fighting Apparatus as Only Solution.

Three fires in less than two hours last night, the finding of cans filled with coal oil at the scene of one of the blazes and one false alarm make Fire Marshal J. A. Carlisle believe there was an organized effort to give the fire department trouble or burn two local buildings yesterday.

First of the calls was to C. H. Cox's garage at the rear of 325 Washington street, where two automobiles are stored. Only slight damage was done to the building. Cars were not touched. On the floor of the building were found two sardine cans filled with coal oil. Oil had been burned out of a third can. Footprints were found in the mud and could be traced to the garage. Fire Marshal Carlisle is without any further clue, but stated last night he is working on the case.

#### Second Alarm Comes.

Before forty minutes had passed an alarm was turned in from Ninth and Jefferson streets. Residents of that part of the city stated they saw an automobile drive up to the alarm box and then rush away. Officials of the fire department believe they have the number of the car and are trying to locate it.

Fire caused from a defective flue at the H. Hutchenrider residence, 927 Washington street, gave the department their third run of the night. The residence, two stories high, was gutted and practically totally destroyed. Six persons were in the house at the time the blaze started. The fire was discovered upstairs in the room of Miss Nina Bohanan, who roomed at the house.

Joe Humley, usher at the Orpheum theatre, and several others carried a great amount of furniture from the house before the flames had reached the first floor. However, it was estimated about \$1,000 worth of furniture either burned or was watersoaked. The damage to the house was estimated at approximately \$2,000. Loss was practically covered by insurance.

Spreading to the house next door, which also was owned by Hutchenrider, the fire caused minor damages to the walls and roof.

#### Third Alarm Rings.

While firemen were working within the Hutchenrider home the Seventh street negro school house, near Jefferson street, soon became enveloped in flames. Two hoses responded to an alarm. Whipped by a stiff breeze and with but two hoses offering resistance, it looked as though the fire would wipe out a string of negro houses across the street on the west. Facing the flames, the firemen fought the blaze back, often getting within falling distance of timber from the second floor of the burning structure. With only remnants of the walls standing, they got the fire under control, the blaze merely damaging the houses on the west.

While the two fires were raging one company was held in reserve for protection of other parts of the city. One of the pumps was out of order and another was in such condition it could be used only a part of the time.

Fire and Police Commissioner L. C. Richards has issued a statement following an investigation of every unit of the fire department in which he says the apparatus is not up to the standard of other Texas cities and he urges immediate remedy.

#### Richards Wants Equipment.

"The equipment is not up to that of other towns of like size in the state," states Richards. "It is not keeping pace with the growth of the city and cannot give efficient service that would be given if certain improvements are made that I find to be consistent with the growth of the city and which the municipality demands."

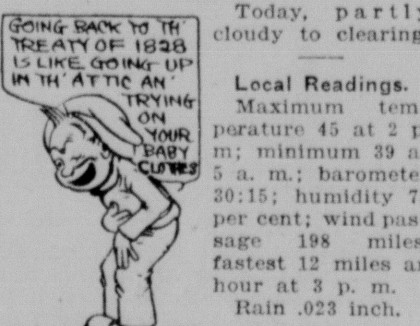

Early yesterday afternoon the department made a call to the residence of W. A. Holt, 2214 Washington street, where a burning mattress ruined the contents of the dining room.

#### Life for Pres. Brooks Just One Thing After Another at Baylor University

Yesterday, with the break of day, a tombstone of rock, five feet in length, buried three and a half feet in the ground, appeared on Baylor campus, immediately in front of the Baylor Book store, with this inscription facing the street:

SACRED TO THE  
MEMORIES OF  
SENATORIAL  
AMBITIONS.  
BORN DECEMBER 4, 1863.  
DIED JULY 22, 1916.

A grave moulded out of fresh dirt was decorated with frames which at one time held flowers.

The tombstone formed the campus center of interest until the chief janitor and four others, including a member of the faculty, removed the cause. The job was a healthy task, and while the officials were tugging at the stone a crowd of students numbering more than a hundred gathered around, adding humor to the situation by removing their hats and assuming a solemn attitude. Then one gave vent to his pent-up energies in a hearty laugh, which was followed by a roar from the crowd.

Ordinarily a joke of this nature is

#### CONGRESS MAY FORCE EXTRA SESSION YET

Leaders Fail to Smooth Over Difficulties in Way of Important Measures.

#### NAVAL BILL IN DANGER

Senate Amendment Disrupts House Leader Plans and Things Look Dark.

By Associated Press.

Washington, March 3.—Republican and democratic senate leaders failed in a conference late today to smooth over difficulties in the way of important legislation still pending and both houses of congress remained in session at midnight.

More trouble arose over the refusal of the house to accept an amendment by the senate authorizing a bond issue of \$150,000,000 to meet added expenses provided for in the naval bill as it passed the senate late this afternoon. The house leaders, pointing out that revenue legislation could originate only in the house, promptly passed a resolution to that effect and sent it over to the senate.

After hurried conferences between democratic and republican leaders, fearful that to reopen debate on the bill would mean its failure, the senate without a roll call repassed the measure with the bond issue provision eliminated.

The senate's action was greeted with cheers in the house, and the house adjourned at 2:20 a. m.

#### CHINA IN WAR WITH ENTENTE ON GUARANTY

Will Be Given Relaxation of Boxer Trouble Restrictions to England.

#### SUCCESS SEEMS ASSURED

Celestials to Save 30 Million a Year in Return for Aid.

By Associated Press.

Washington, March 2.—Negotiations looking to China's entrance into the war against the central powers now are in progress at Peking and in all the entente capitals, it was learned here today, and their success depends only upon the harmonizing of the rewards with the amount of co-operation demanded. It is regarded as practically certain that China will sever relations with Germany and a declaration of war probably will follow if the entente will guarantee sufficient relaxation of the restrictions imposed after the Boxer troubles.

China desires to secure the complete remission of the Boxer indemnities, which total over thirty million dollars a year and continue until 1940. If she entered the war the part which otherwise would be paid to Austria and Germany could be repudiated.

There are about three thousand Germans in China, who would be placed in concentration camps if war were declared.

#### DEFEATS VILLISTAS: RETURNS TO JUAREZ

GEN. MURGUIA LEAVES 2000 SONORA TROOPS TO POLICE WEST STATE.

Juarez, Mex., March 2.—After three engagements with Villa troops in Western Chihuahua, Gen. Jose Carlos Murguia has returned to Juarez with his death troop, leaving two thousand Sonora troops of the de facto government to police the western part of the state formerly occupied by the American punitive expedition.

More than one hundred Villa followers were killed in battle or executed by Carranza troops in the campaign, according to General Murguia. The most extensive of these engagements was fought at Rincon, Chihuahua, south of Madera. Another fight occurred near Colonia Dublan and the third between Pearson and Casas Grandes.

General Murguia declared Jose Ynez Salazar was near Valle with 175 men.

#### Would Not Shoot Dogs in This City Without Warning

DOGS may not be shot in Waco next summer without warning.

Such was the suggestion issued yesterday to city authorities who contemplate a severance of diplomatic relations with canines not found with the national emblem of Waco's city dog tax painted or hung upon them.

They may first be put up and sold at auction to the highest bidder.

Parties who take this position say valuable dogs often are killed because owners do not know where they are or when they are to be killed.

#### U-CRISIS BILL EXPECTED TO PASS SENATE

Wisconsin and Iowa Senators Are Stumbling Blocks in Progress Last Night.

#### AMENDED MEASURE DISCUSSED

Leaders Propose Step to Prevent Delay in Final Passage.

By Associated Press.

Washington, March 3.—Early this morning, after more than eight hours' debate on the armed neutrality bill in the senate, leaders reached an agreement for a recess until 10 a. m. without setting a time for vote on the measure.

At 12:45 o'clock the recess was taken. The agreement was reached after Senator La Follette had withdrawn his objection to taking up the bill as passed by the house, with a view to substituting for it the broader senate measure approved by the president.

Democrats in charge of the bill proposed this step so it can go to conference immediately after the senate acts, instead of having to be sent back to the house.

#### La Follette Blocks Action.

Senator La Follette, upon whose attitude virtually depends when a vote will be reached, declined to agree upon a time to vote. Numerous senators still have speeches to make, and it probably will be late tomorrow before the bill goes to conference. Administration leaders are confident the house will adopt the senate amendment.

Senator Cummins moved early in the debate to amend Senator Stone's amendment by providing for convoys for merchant ships and later Senator McCumber proposed as a substitute for the entire bill a resolution declaring the right of neutral merchant vessels engaged in commerce, including the right to arm for defense only. Believers would have the right under the resolution to blockade in a zone around an enemy and to search, seize or destroy contraband cargoes. Neutral vessels challenged could be fired upon only in case of attempt to escape.

#### Arkansas Senator Ridiculed.

Senator Kirby of Arkansas, one of the senators who voted against the resolution recently passed by the senate approving President Wilson's severance of relations with Germany, said he expected to vote against the bill because "Wall street and the hirelings of the press" are responsible for the conditions that now exist and wish protection for munitions carrying ships. Apparently greatly agitated, Senator Kirby astonished his colleagues by beginning an appeal to "my fellow citizens" and when that brought a roar of laughter from the floor and galleries he changed to "gentlemen of the convention."

"Fellow citizens; gentlemen of the convention—the peoples' mind has been inflamed," he shouted. "The hiring press has inflamed them so that we hardly dare deliberate here."

The senator said he did not question the president's power or his discretion but opposed the bill because he felt under it, sooner or later an American ship with American guns and American gunners would meet a German submarine.

#### Declares War: Certainty.

"When that gun roars," he said, "it will be an American gun speaking and that will mean war. If we go to war with Germany we must carry the war to her shores and I am thinking of the million young men of this country."

"Even if we have war with Germany it would be nominal, because of physical conditions," said Senator Poindexter, "perhaps fortunately for us in our present condition. No glory can come from a conflict with Germany bled white and staggering but much dis-

Says This Lady Who Had to  
Support Family of Four.  
Read Below Her State-  
ment About Cardui.

Tallahassee, Ga.—Mrs. Sallie Eidson, of this place, writes: "I was in very poor health, all run-down, nervous, had fainting spells, dizziness and heart fluttering. I had these symptoms usually at my . . . times. I had a very hard time, working for seven years in a hotel after my father died. I had to support our family of four. I read the Birthday Almanac and thought I would begin taking Cardui. I received good benefit from it. I am sure it will do all that it claims to do. I took three or four bottles before it began to show effects. After that I improved rapidly and gained in health and strength. I took nine bottles in all. This is the only time I have taken it. I was down to 108 pounds and I gained to 122. I felt like a new woman. I couldn't sleep before and had to be rubbed. I would get so nervous and numb. And all this was stopped by Cardui."

The true value of a medicine can be determined only by the results attained from its actual use. The thousands of letters we have received every year for many years from grateful users of Cardui, are powerful tributes to its worth and effectiveness.

If you suffer from woman's troubles, try Cardui, the woman's tonic.

Mr. Martin made a statement that he was in Fredericksburg on business and had not known his presence was so ardently desired. The matter still is pending.

Judge J. M. Lindsey of Gainesville, a member of the Eleventh legislature, was a special guest of the house and made an address in which he urged the members to put temper aside and let calm judgment prevail in the consideration of all measures. He urged that the progress of the state be always the first consideration and that less attention be given to the terms "interstate and intrastate."

Eddins, Norma Bonner, the honoree and hostess.

This is Mrs. Goodman's first visit to her husband's parents, and the first opportunity friends have had to extend post nuptial courtesies. Her previous visit was a recuperative one, following a long attack of typhoid fever. So now she is being showered with pretty courtesies from family friends, who pronounce her a charming little woman and delightful honoree. The informal though enjoyable gathering of Thursday was one of several smart affairs given in her honor this week.

## Literary Club.

Mrs. S. P. Brooks opened her Speight street home on Thursday for her club. Carnations in parlor and flowers of early spring in library made the spacious rooms most attractive. The chill and dreariness of the afternoon were quite forgotten in the cheerful glow of the fire light.

In the absence of Mrs. Foster, Mrs. M. B. Willis presided.

Noted sayings of great men was the roll call. The majority given "showed the spirit of '76" as almost parallel with that of today when the "times that try men's souls" are again upon us.

Mrs. J. W. Downs gave a delightful sketch of "Winterfeast," bringing out forcibly the lessons to be derived therefrom.

Mrs. Sleeper was absent on account of illness and her paper was not read. Miss Eschol Taylor gave two brilliant piano selections, viz:

Beethoven, Sonata, op. 110 and Beethoven, Passionata, op. 57. The first was the inspiration for Kennedy to write "The Servant in the House." The last inspired the "Winterfeast." Miss Taylor is one of the clever pianists of Baylor university and has enjoyed marked success as a teacher.

Mrs. J. T. Bonner led the round table discussion.

Mrs. Brooks served her guests with a delicious refreshment plate ere their departure. She was assisted by Mrs. Simms Allen.

Mrs. B. C. Nettles will be club hostess on March 15.

## Dramatic Recital.

Presenting a type of program that readily met the fancy of everybody Miss Honor E. Wolfe, formerly of Waco but now having headquarters in New York City, was heard in a dramatic recital at Baylor university on Thursday. This was under the auspices of the English department of which Dr. A. J. Armstrong is the efficient head. The plays that Miss Wolfe selected for the Waco recital were:

"The Shadow of the Glen," by John Millington Synge, the most distinguished of all the Irish playwrights, and with whom Miss Wolfe has a close personal acquaintance dating from a tour made by her of Ireland; also "The Gods of the Mountain," by Lord Dunsany, and to this repertoire was added "The Quest," a play of her own which has already been accepted for performance in New York this fall. Miss Wolfe's interpretation of these widely discussed Irish playwrights was exceptionally pleasing to the large audience assembled in appreciation and welcome to one whom Waco once claimed as her own.

Perhaps it was the play itself of Oriental setting, but more likely than not it was the strong personal interest of the audience in the writer of "The Quest" that made this the most popular of Miss Wolfe's dramatic readings on this occasion.

## Mrs. Laughlin Hostess.

The Thursday Auction enjoyed a strictly club meeting when entertained by Mrs. Ed Laughlin this week. The club plate fell to Mrs. C. N. Smith and Mrs. P. L. Booth is the successor of an attractive picture cut in consolation. The next hostess will be Mrs. B. C. Moulden.

## Thursday Bridge.

Mrs. Leslie B. Gardner was hostess at the Country club for the Thursday Bridge game of this week, at which Miss Beatrice Bartley of Terrell captained.

## Sentiment.

Many sacred memories have stirred in the burning of the Central Presbyterian church, corner Twelfth and Washington streets, where baptisms have been administered, marriage vows plighted and funerals of our sacred dead preached.

This homeless congregation, of which Dr. E. E. Ingram is pastor, will worship temporarily at the Temple for their morning and evening services on the Sabbath and Sunday school will be held by them in the afternoons at the Central Christian church.

It is in the desire of the session that not one single service be omitted because of the fire.

Honoring Mrs. Goodman, Jr.  
On Thursday Mrs. Thomas Padgett and Miss Mable Chambers claimed Mrs. Forest Goodman, Jr., as honoree at a tea drinking, where she was introduced to the maids and younger society matrons.

Blush pink carnations and sweet peas added a spring-like touch to the elegant Padgett home. They were vased in reception hall and parlors and adorned the table over which Mrs. George Rotan presided.

The attractive house party was composed of Messrs. Forest Goodman, Sr., W. H. Jones, R. B. Dupree, George Rotan, S. P. Ross, Clint Padgett, Misses Mildred Fort, Ethel Foster, Virginia

## Pays Tribute to Waco's Practical Garden Effort

"Waco is the only city in Texas which has thus far really made a practical start on school and vacant lot gardening."

This is the statement of Paul Wipprecht of the extension department of the State University, who has just left Waco after a week spent in looking after the gardening interests here. Mr. Wipprecht will return to Waco again in April and in May to look over the gardens.

While here this time he delivered four or five lectures in addition to much inspection and advisory work in gardening. At present Mr. Wipprecht is in Houston.

### ADLETS—YES, WE'RE IN BUSINESS

The merchant who does not advertise  
simplifies the labor problem by not  
having to employ so much help.

### SHORT ONES.

Notice they're arresting movie pro-  
prietors for showing films of undraped  
actresses. Why not arrest the actresses  
for a change?

K. C. police capture boys shoot-  
ing beans from log fort up after mis-  
siles are exhausted. Up on! attrition,  
men!

### PEP AND A RAILROAD.

THE house has unanimously passed  
the bill for the extension of the  
state railroad running from Rusk to  
Palestine. Its logical terminus is  
Waco.

The road should be extended to  
Waco and give this city an outlet for  
the fertile country between Waco and  
Mexico and provide a lumber and fruit  
country connection to the district east  
of Palestine.

Dallas, the rival of Waco for the  
extension, already has almost a direct  
line into this country by way of Ath-  
ens and Jacksonville. The need of  
east and west development of rail-  
roads in Texas is being increasingly  
felt. It is also certain that Waco will  
be chosen over Dallas if the arguments  
for Waco are vigorously and ably pre-  
sented.

### THE PRESIDENT'S RIGHT.

**F**ILIBUSTERING by Senator La-  
Follette and statements to the  
German reichstag by Bethmann-Holl-  
weg that the United States was  
"brusque" and in the wrong in send-  
ing Bernstorff home are responsible  
for the revelation by the state depart-  
ment of the German plan to invade the  
United States in the event of war by  
an alliance of Mexico and Japan with  
the central powers.

The context of the documents in  
President Wilson's hands indicates Japan's  
refusal to betray England was  
responsible for the failure of the plot  
and is the key to the recent recession  
of the Mexican government from  
its arrogant attitude during midwinter  
when it looked as if the Mexicans  
might have Japanese and German sup-  
port in an attempt to wrest Texas,  
New Mexico and Arizona from the  
United States.

We must remember Germany was  
planning this alliance against the  
United States at a time our govern-  
ment was straining every nerve to  
keep peace with both Mexico and Ger-  
many.

The news hopes that in the light of  
the present no Texas vote in congress  
will be wanting in giving the president  
full power to act in the possible emer-  
gencies that may come to our country  
at any hour.

### THE FARMER LAUGHS LAST.

THE farmer is coming to his own.  
Time has been when the city  
folks would make a stock joke of the  
"rube" as he drove to town with his  
team. But the tide has turned; the  
"rube" has made good; he now laughs  
at the city "dub" as he drives to town  
in his high powered motor.

The "rube" used to be the joke of  
the city; now the city man on the farm  
is the "joke" of the country.

The average city man on the farm  
is a real joke. Even the turnips seem  
to know him. The peas fairly rattle  
in their pods with derision as he struts  
by; the bees sting him; his cabbages  
turn out to be cauliflowers; the thun-  
der sours his milk; the drought takes  
his corn; the rot kills his tomatoes;  
the rust ruins his wheat; the hogs dig  
up his potatoes. Everything goes  
wrong largely because he doesn't know  
how and because he thinks that dropping  
in a few seeds and waiting for  
riches to grow completes the work of  
the farm. After a year or so, he hies  
himself back to his city home, con-  
vinced that farming is a failure.

Not so with the farm "gawk" in  
town. He takes hold of things; he  
strives for the top and he usually gets  
there; he holds the best places in  
business; he becomes the leading citi-  
zen; he leads in church, school, office,  
factory—he walks right into the city  
man's fields and beats him at his own  
game in his own sphere.

Not only is the farmer lord of the  
country, but he can and does send his  
son to town to become lord of the city.

Laugh on, Mr. City Man, at the  
"rube" from the farm.

But remember, "he laughs best who  
laughs last."

The farmer usually laughs last. For  
he usually has the goods.

### THE TIE THAT BINDS.

IF our country should be forced into  
war by the present menacing con-  
ditions, there will be one consolatory  
effect attending it that it is already  
apparent will be felt from one end of  
the nation to the other. This will be  
a knitting of the hearts of our people  
in a bond of unity and common brother-  
hood such as has rarely, perhaps  
never, been the case in our previous  
history.

In the crisis that now confronts our  
country the position our government  
has assumed is so eminently just that  
it finds a solidly united nation at its  
back. Our efforts to avert the present  
situation have been so patient and per-  
sistent that now when we are forced  
to stand at bay it is recognized by all  
our people and by all those of other  
lands except, perhaps, those of the  
nation which has forced this dread  
alternative upon us, that no other  
course was possible for us than the  
one that we have taken. Hence if we  
must have war with Germany we are  
likely, as we have said, to see a more  
complete solidarity of patriotic devotion  
throughout our country than it has  
ever witnessed before. Premonitory  
symptoms of this are already ap-  
parent in the loyal demonstrations  
that are announced from all classes of  
our people. Party antagonisms have  
been thrown to the winds, and the  
settlement of controversies between  
labor and capital have by spontaneous  
consent been adjourned to a more  
convenient season.

The unanimous sentiment of the  
American people now is that support  
of our government is a sacred duty.  
With this great nation thus cemented  
into a bond of perfect union and de-  
termination to face with the courage  
that is a heritage of our forefathers  
whatever trials and sacrifices war may  
bring, we have no need to fear the  
result. This situation is one to be  
proud of, and in it rests a sure promise  
of victory.

### Letters from the People.

To the Editor:

Having read your write-up of the  
proceedings at the city hall Thursday  
we note that you only gave that por-  
tion of the testimony which may serve  
to do the officers that were suspended  
the greatest harm. We think that  
in justice to us you should have  
printed the record and not pick the  
portions of it that suited you best and  
in this way try to make your paper  
of hurt and harm to men who have  
made Waco their home for many years,  
and who will be here perhaps when  
yellow journalism has become unpop-  
ular and political horse-plays con-  
demned.

You failed to give that part of the  
record that proved that you did not  
see what you said took place at the  
Auditorium, and that you wrote such  
article from "hear-say." You fur-  
ther failed to print that part of the  
record that proved that Todd was be-  
ing taunted and insulted by the man  
he assaulted, you failed to give that  
part of the record that showed that  
Mr. James, as assistant chief, was  
simply following out the custom of  
many years in sending officers to  
places of that kind and you further  
failed to show that he had excused  
the four men from their beats, leaving  
someone there in their stead. You  
further failed to print that part of the  
record which showed that no police  
officer went in on his "badge" but that  
to the contrary, the promoter of the  
match said that he had invited the of-  
ficers to come. You further failed to  
print that portion of the testimony of  
Mr. McGregor, wherein he said he had  
no complaint to make against Mr. Todd  
for having done what he did and there  
were many other things that you do  
not give in your report. All we ask  
you to do is to play the game fair, and  
to keep the record straight. We shall  
rest content as to what the future may  
reveal as to the "real bug under the  
chip."

Very truly,  
W. R. TODD.  
C. P. JAMES.

To the Editor:

Dallas, Tex., March 1, 1917.  
While I did not get to talk to you  
the other night at the Fox-Brown  
match I am awfully sorry that that  
mix-up happened with the officers, as  
it has a tendency to hurt the sport-  
ing game. However, it was no fault  
of ours and I hope it will be "smoothed  
over."

I want to thank the people of Waco  
more especially the newspapers, for the  
courtesies and while I am a hard  
loser, I am a good one, as I will con-  
cede everything to Brown. He is a  
wonderful wrestler.

I do not ask for a return match, in  
fact I do not suppose Fox will wrestle  
Brown again; in fact I know he will  
not under the circumstances as he  
(Brown) will positively refuse to make  
162 pounds ringside.

Again thanking you for past favors,  
and when in Dallas would be glad to  
have you call and see me.

Yours in sport,  
CAPTAIN CHAS. JONES.

To the Editor:

I see from the paper some foreign  
boys sent a telegram to Washington  
to let it be known how they stand.  
Those of us who are native born and  
have a drop of patriotic blood in our  
veins ought to let it be known, too,  
how we stand. I would like to have  
the honor of heading the list for it  
would be an honor. Think it over  
and maybe you can continue to use  
your good paper for good.

Respectfully,  
S. Y. LEE.

### THE FORT WORTH EVENT.

Special to The News.  
Fort Worth, March 2.—That the Na-  
tional Feeders and Breeders' show of  
Fort Worth has become a sales show  
is proven in the fact that more than  
600 registered, pure-blood cattle have  
been registered for sale during the  
week of the show over the auction  
block in the coliseum arena. This fea-  
ture of the show has developed to such  
an extent that it has become a burden  
under existing conditions. On account  
of the lack of stalls in the Southern di-  
vision, all sale cattle have been forced  
into pens at the rear of the coliseum.  
The native sale stuff will be cared for  
in barns along with the show herds.

The show entries are twice as heavy  
for this March show as they have been  
at any former exhibit. The Hereford  
division is more than twice as large,  
the Red Polled division is four times  
larger than previous shows and the  
Aberdeen Angus and Shorthorn divi-  
sions show a decided increase. The  
Jersey division will be crowded, prac-  
tically all of the big herds of the  
Southwest will send animals.

Arabian Nights, a pageant, will be  
the feature opening the stock show.  
Saturday night, March 10. Society  
women from all over Texas will take  
part in the pageant in the capacity of  
princesses. The entire week will be  
given over to society.

The Round-Up, the stellar entertain-  
ment of the stock show, will be the  
most stupendous production of frontier  
sports ever assembled before in the  
Southwest. More than 300 cowboys  
and cowgirls have signed for the week.  
The worst of the meanest outlaw  
herds in the United States have been  
acquired for the production and long-  
horn steers from Southwest Texas  
plains will be roped and bull-dogged  
in the coliseum arena.

Practically every city of prominence  
in Texas has been honored with a spe-  
cial day at the stock show.

Fort Worth Day, Monday, March 12,  
will be featured by a patriotic and in-  
dustrial parade. A holiday has been  
called for that day by Mayor E. T.  
Tyra and practically every line of in-  
dustry will cease, giving employees an  
opportunity to attend the stock show  
and round-up.

Entries in the beef cattle division  
have been closed. Following are the  
exhibitors and the number of show  
cattle listed:

# Is the Food Famine Artificial? What Are the Remedies?

Hunger riots in New York, Philadelphia and elsewhere, in a period of unprecedented national prosperity, are startling enough to arrest the attention of city, state and federal legislators. When women in various tenement districts of New York and Brooklyn began a campaign of riotous protest against the high price of food in the local markets, they upset the push-carts and barrows of the food peddlers, threw kerosene on the stock, improvised boycotts, and drove away intending purchasers. Hundreds of them marched to the city hall and demanded food from the mayor. Even if the charge is true that these riots were stage-managed and accelerated by agents of the Central Powers who wish to see Congress supplement Germany's submarine campaign by placing embargoes on the exportation of foodstuffs to the Entente Allies, they nevertheless emphasize the situation which bears down with special severity upon the poor.

The New York World blames the food speculators for these conditions and urges the state to exercise its police power and take over the food supply. From another source, the railroads are blamed, because they do not give food shipments preference over other commodities. And so it goes. Meanwhile, despite the fact that the country is within the shadow of impending war with Germany, the question of feeding the people of America is arousing vast interest.

In THE LITERARY DIGEST for March 3d, the leading article covers this subject from all angles and suggests methods of cure.

## An Impartial Survey of Facts

This is an age of what President Wilson has termed "pitiless publicity." Everything finds its way into print and the vast quantity of matter with which our daily and weekly press is flooded is simply staggering to the man who wishes to learn the essential news of the day and yet dislikes employing a muck-rake or a fine-toothed comb to arrive at it. To this man and to the many thousands of men and women who feel as he does the weekly appearance of THE LIT-

ERARY DIGEST is a rare boon. Not only does it give him the news in an instantly accessible form, free from all unessential matter, but it quotes papers of the most widely divergent views upon all the vital questions of the hour, thus affording an unbiased survey of everything of importance that is taking place in the world. Here you get the meat of public events. The current number is a fine example.

## WILBANK DRAWS FIRST PLACE FOR BIG AUTO PARADE

MEETING OF AUTO MEN HELD  
YESTERDAY TO PLAN FOR  
NEXT WEEK'S SHOW.

Arranging details of the big parade and show of automobiles in connection with the Waco style show next week, a long yet busy meeting of the Waco Auto and Accessory association took place yesterday noon at the Hotel Raleigh.

Places in the parade and show space were drawn for, committees named to complete any details unattended and other business transacted. President Percy Willis presided.

First place in the parade was drawn by Jesse Wilbank of the Herrick Hardware company. This entitles the firm to choice of space in the show section, which is on Sixth street from Austin to Franklin streets. The parade will start at 7:30 o'clock, passing down Austin street and over to Franklin, where cars will be grouped according to drawing yesterday. All is in readiness for the Sixth street show. This space will be closed against all vehicles save the auto display from 7 o'clock to 11 o'clock. It will be beautifully lighted by strings of electric lights, the light to be furnished by the Texas Power and Light company. It was agreed that pleasure cars should come first in the parade, in the order determined by the drawing, to be followed by the accessory trucks, then bare trucks and quick tire service vehicles. A band will accompany the parade.

### Committees Named.

The following committee was appointed by President Willis to arrange for uniform marking cards on all cars to enter the parade: Clyde Ryburn, D. Humphrey and C. A. Weathered. Committee to line up the cars on the show space on South Sixth street: N. S. Clifton, Dud Reed and E. F. Zart. New members received yesterday: Messrs. Hall, Moore, Collins and De Cordova.

Visitors were present at the luncheon from Dallas as follows: C. P. Wells, Lexington Motor company; T. J. Conway, Premier; W. R. Roberts, Trawley Motor company; A. C. Sommers, White company.

C. C. Lewis, secretary of the Waco Retail Merchants' association, also was present, and all visitors made short talks.

## Hygiene Talk Is Given Before High School Club

Dr. W. L. Crosthwaite addressed the Waco high school club at its regular meeting last night. His subject was "Sex Hygiene."

Announcement was made by President Blake Johnson that Dr. W. B. Blizzell, president of Texas Agricultural and Mechanical college, will address the club next Friday.

## Candidates Are Named by Socialists' Union

Candidates for city offices were nominated last night at a meeting of the local socialist local. T. M. DeLoach was chosen as the socialists' candidate for fire and police commissioner; A. F. Von Blon, health commissioner; C. P. Bullough, tax collector, and P. A. Hall, tax assessor.

### TIGHT BOWLING GAMES.

Meeting on neutral alleys at the Maenechor, the Elks and Huaco club teams of the City Bowling league had a warm mix-up last night. The Elks broke loose in the first game like a house afire on a dark and cloudy night but fell down in the last two and so the decision went to the Huaco team.

The third game was a nip-and-tuck affair, Storey's 200-score being the deciding factor for his team. The score by games:

Dear Sir: I am so well pleased. I had indigestion for a long time, and in September I began taking your tonic and took two bottles and have not been troubled since; besides, I had smothering spells and shortness of breath. The doctors called it neuralgia of the stomach, and it cured me, and I have not been bothered since.

## Getting Acquainted With Waco + Brooms Are Affected by H. C. L.

FAILURE of the broom corn crop during 1916 played its part in the upward moving price of brooms, and the advance in price of other things entering into the making of the brooms combined to make a knotty problem from broom manufacturers, according to Joe S. Thompson of the Waco Broom factory, located at the corner of Turner and Ashburn streets in East Waco.

This factory is owned by Mr. Thompson and by J. W. McMurrian, the latter being the manager. Regarding the broom corn and other features of the business of making brooms, Mr. Thompson said:

"Nearly one-sixth of the broom corn supply of this country is raised in Texas most of it in the coast country, and last year was one of the driest ever known there, cutting the crop very short. Oklahoma also practically made a failure, while the crops of Illinois and Kansas broom corn do not find their way here. The price went

from the normal figures of \$75 to \$100 a ton to \$175 and \$300 a ton, according to grade. Steel, wire, analine dyes and other things advanced from twenty per cent to several thousand per cent in some cases, the dye jumping from eighty cent a pound to \$15 a pound. Even the paper for the labels and the paper in which brooms are wrapped advanced sharply. Quite a bit of dye is used as the broom corn itself is all dyed to make it hold its color. Ordinary handles advanced about ten per cent, and bamboos which come from Japan, fifty per cent.

"Most broom manufacturers are trying to run on through on the corn supply on hand, the new crop being due in July. I want to say that we have had loyal support at home from some concerns handling brooms, and the Rotan Grocery company (now the Shear company) has stuck to us through the years, handling our products right along. Home people should as far as possible use home goods."

## Theatres

### HIPPODROME.

#### "Vera, the Medium."

The story of "Vera, the Medium," which stars the famous English beauty, Kitty Gordon, and shows at the Hippodrome theatre today only, is based on the theme that is ever new, the battle between the sexes. Vera, called "The Medium" because of her peculiar and powerful influence on men, frequents a famous gambling house and makes slaves of every man present. One night she encounters a man, happily married and coming to the house only in an effort to save a young friend, who scornfully rejects her advances, and when he has gone Vera offers to bet herself against \$1,000 that she will have the man at her feet inside of one week. A stranger present takes up the wager, and Vera immediately starts her conquest. The result is a story of unusual suspense and interest, unforgettably told. Miss Gordon has at last found a story that gives her an ideal role for the screen, and she makes the most of her opportunities for emotional acting. The character created by that master novelist, Richard Harding Davis, lives under the skillful portrayal of the talented actress, and she is supported by an excellent cast, including Lowell Sherman, Grant Hitchcock, Joyce Fair, Grace Blow, Gordon Harris and Frank Goldsmith.

### AUDITORIUM.

#### "The Birth of a Nation."

Waco people will have their last opportunity to witness "The Birth of a Nation" at the Auditorium today at 2:30 and 8:15. The Griffith spectacle is finishing its farewell engagement as strong as it started and the advance sale for both of the remaining performances indicates that late comers are in danger of standing. But there are still some good seats to be had and those who call at the box office early in the day will find a fairly good selection.

"The Birth of a Nation" is soon to be withdrawn from the road to make way for the new Griffith masterpiece, "Intolerance." When it terminates its local engagement tonight, it will have been witnessed by more people than have ever attended an amusement offering in Waco, and the total paid admissions during its three engagements will amount to a comfortable fortune. While the picture itself has an especially strong appeal, the symphony orchestra of twenty-five which plays the grand operatic accompaniment is a strong factor in the success of the production. By local music lovers the orchestra is pronounced one of the best ever heard here.

#### "Little Miss Mix-Up."

There is a rare treat in store for lovers of up-to-the-minute musical comedy next Monday night, when James A. Galvin, known as "the Musical Comedy King," brings his "Little Miss Mix-Up" company to the Auditorium theatre, with Johnny and Irene Galvin as the featured members at the head of an organization of thirty people.

Did that itching keep you awake last night?

And how can you expect to sleep tonight unless you do something to relieve the trouble? Eczema and other itching skin troubles don't often heal themselves. But it is surprising how quickly

## Resinol

heals sick skins

Almost daily we hear from a skin-sufferer who says "Resinol Ointment stopped my itching at once and I got the first good night's sleep I had in weeks. Now my skin is well."

Resinol Ointment is sold by druggists everywhere.

## LATE RECORDS HAVE VOICES OF WORLD'S GREATEST ARTISTS

NUMBERS GIVEN BY EMINENT  
VIOLINISTS, SOLOISTS AND  
ORCHESTRAS.

Records for violas and graphophones received in Waco in the past ten days include numbers from some of the world's leading musicians and entertainers.

Lazaro, often called "the greatest" since Rubini, sings on a Columbia record "Salve! Dimora Costa e Pura" ("Hail, Thou Dwelling Pure and Lowly"). One of the great climaxes in "Faust" occurs in this solo.

Other numbers offered by the Columbia are Kathleen Parlow, supreme woman violinist, "Minuet in G" (Beethoven), orchestra accompaniment; magnificent operatic chorus and selections from "Pagliacci" (Leoncavallo), Bell chorus; Morgan Kingston, famed tenor, "The Sundown Sea" (Stackel), and "Kiss Me, Love" (Tosti), orchestra accompaniment; "Heart Melodies," sung by Charles Harrison, "Macushla" (Mac Murrough), and "Mother Macchree" (Oleott and Ball), orchestra accompaniment. The Lawyers' Luncheon club will be addressed at 12:15 noon today by W. H. Atwell of Dallas, a prominent attorney. President G. H. Penland and Secretary Conway expect a large attendance. popular artists: "Irish Love Songs" (Lang), Grace Kerns, soprano, orchestra accompaniment, and "The Little Irish Girl" (Lohr), Reed Miller, tenor, orchestra accompaniment; David Bismarck's "Danny Deever" (Darmoch), words by Kilping, David Bismarck, baritone, orchestra accompaniment, and "The Pirate Song" (Gilbert).

### Edison Selections.

"She Is the Sunshine of Virginia," a characteristic "Geographic song" with a unique swing, and a refrain that is catchy, is one of the leading Edison diamond-disc recreations. Harry Carroll, tenor, sings this number.

Other Edison numbers that are among the latest are "For Killarney and You" (Louise Teasdale), Charles Harrison, tenor, and "I'm A-longin' for You" (Jane Hathaway), Merle Alcock, contralto; "So Long Letty" (Earl Carroll), Helen Clark, contralto, and Joseph A. Phillips, baritone, and "On the South Sea Isle" (Harry von Tilzer), Helen Clark, contralto, and "Poor Butterfly" (Raymond Hübner), Elizabeth Spencer, soprano, and "Flora Bella" ("March Song"—Milton E. Schwarzwald), Walter van Brunt, and chorus of girls.

## HEALTHY MOTHERS

A woman desires to remain healthy and to retain her good looks after giving birth to her child. Women who go through the period of expectancy with the least strain and suffering are those who prepare their system in advance of baby's coming.

"Mother's Friend" is prepared to give the mother-to-be that direct and immediate help she needs. The muscles expand easier. The breasts are kept in good condition. The system is prepared and the crisis is one of much less danger. Three generations of women have used "Mother's Friend." They say they would not go through the period of expectancy without it. Every aid that may be given the expectant mother should be rendered. Her husband will gladly get "Mother's Friend" for you from the druggist.

which may result in new quarters for  
the exchange, is under way with inter-  
est shown by various cotton firms,  
agencies and brokers of Waco.

It is proposed to take in three or  
four cotton associations and combine  
them into one body, with one common  
exchange, thus making a more homo-

to a minimum.

Cotton men are canvassing the propo-

come out of the matter at an early  
date.

for San Antonio, to attend a meeting  
of the Texas Reclamation and Conserva-

organization from all parts of Texas.  
The meeting is to outline an educa-

preparing the people and informing  
them on the merits of the proposition  
which will be submitted for a vote in  
the form of a constitutional amendment  
in August this year, the amendment

been made at Temple of a negro want-

erations being unusually bold.  
The arrest at Temple was made by  
Deputy Sheriff Jerry Gray, and the  
negro apprehended is Jeff Bailey. Of-  
ficer Hall states he went under the  
name of Henry Williams in Waco. He  
was identified by means of pictures

## The Horrible Handicap of Poisoned Blood

THE INNOCENT SUFFER EVEN  
UNTO THE THIRD AND FOURTH  
GENERATIONS, BUT RELIEF IS  
NOW IN SIGHT.

It has long been accepted as a mat-  
ter of course that the sins of the fathers  
must be suffered by innocent pos-  
terity, yet it is hard to become recon-  
ciled to this condition. The heritage  
of physical infirmity is a handicap un-  
der which thousands must face the  
battle of life.  
Scrofula is probably the most notice-  
able of the transmitted blood disorders,  
though there are other more severe  
diseases of the blood that pass from  
one generation to the other. No matter  
what inherited blood taint you may  
be laboring under, S. S. S. offers hope.

## MUNICIPAL MARKET FOR WACO URGED BY JNO. F. WRIGHT

SAYS PRESENT CITY HALL BUILD-  
ING SHOULD BE THUS CONVERT-  
ED WITH PROPER FINANCE.

Suggesting that the present city hall  
building be converted into a municipal  
market house, and that a new city hall  
be built, provided it can be financed  
properly, John F. Wright yesterday  
said that the people should at least be  
thinking along this line, as something  
looking to a solution of this matter  
must be done before long.

"I do not know what would be the  
best thing to do, as there are some  
puzzling features to be overcome, but  
it is none too early to begin trying to  
find a solution for the situation," said  
Mr. Wright. "The city hall is well lo-  
cated for a municipal market, and the  
upper floors still could be used and  
made to produce some income for the  
city."

"Probably a new city hall should be  
built, nearer the business center of the  
Waco of the future, but with no  
grounds around it—a business city hall  
with office floors for rent might be  
found desirable; many cities are now  
trying this plan. Some of these build-  
ings are skyscrapers, and offices are  
rented, thus bringing an income to the  
city, while space is reserved for all  
officers of the city government, includ-  
ing the governing body."

"I have not looked into the matter  
carefully, and do not know whether  
our bond limit will admit of a move at  
this time, but certainly we should be  
prepared to act as soon as our finan-  
cial status will permit, and to that end  
discussion and the advancement of  
ideas ought to aid in getting at the  
wishes of the community."

## HALF-INCH RAIN AIDS FARM LAND

REPORTS FROM ALL DIRECTIONS  
TELL OF RAINFALL—FARM-  
ERS SEE BENEFIT.

Half an inch of rain had fallen in  
Waco up to 7 o'clock yesterday morn-  
ing, according to Dr. I. Block. This fell  
so slowly that it was equal to double  
that amount in the view of many farm-  
ers who spoke of the precipitation.

Reports from points north, south,  
east and west were that rain had fallen  
most of these points reporting a little  
more or a little less than Waco. How-  
ever, enough has fallen in a hundred-  
mile radius of Waco to hold grain ten  
days or two weeks, it is agreed, and  
to bring up corn in most instances.  
Gardens will be greatly benefited.  
Elmer Stovall, farmer, six miles  
south of Waco: "The ground now is  
surprisingly moist. Corn will come up  
where planted. Corn planting begins  
in earnest Monday, weather permit-  
ting. Everything in the vegetable line  
is coming up nicely except potatoes.  
The rain will do much good."

Walter Bewley, farmer and dairy-  
man: "The rain will do more good  
than many suppose, as it all went into  
the ground. Corn planting will be  
facilitated, more moisture added to the  
chances of getting corn up, while small  
grain will benefit largely by the rain.  
In fact, it will aid everything."

M. Falkner, large fruit grower: "The  
cooler weather tends to hold back fruit  
to an extent. Chances for a satisfac-  
tory yield seem good at present, al-  
though it is too early to predict as to  
the outcome."

W. A. Morrow, district passenger  
agent of the M. K. & T. railroad, said  
yesterday that an inch of rain was re-  
ported from Stamford, 225 miles north-  
west of Waco, putting farming opera-

## Petition City Commissioners Not to Molest Old Well

A committee has been named to  
choose a suitable bronze tablet for  
marking the old Waco spring, this be-  
ing in the hands of the D. A. R. The  
committee is Mrs. John F. Marshall,  
Mrs. T. L. McCullough, Miss Decca  
Lamar West.

It is planned to have the dedication  
on May 5. Mrs. Frank J. Trau was  
elected secretary and Mrs. Bart Moore  
corresponding secretary, at the meet-  
ing Thursday.

Resolutions were adopted asking city  
commission to not molest an old well  
and a tree near Fifth and Herring.  
Efforts will be made to get a light  
placed at this point and have it con-  
verted into a beauty spot.

## An Appeal to Reason.

Isn't it reasonable to suppose that  
the Optometrist who is constantly en-  
gaged in the science of Optometrical  
work (examining and prescribing  
glasses for defective eyes) would nat-  
urally become more expert in handling  
structural defects than the man who  
is hampered in his professional work  
by selling jewelry, fixing watches, per-  
forming surgical operations, doing this,  
that and the other—the "jack of all  
trades"? At the Exclusive Optical  
Store the eyesight specialist who ex-  
amines your eyes is constantly en-  
gaged in this work and nothing else.  
After he writes the necessary prescrip-  
tion the work is turned over to an-  
other who specializes in the grinding  
of the lenses.

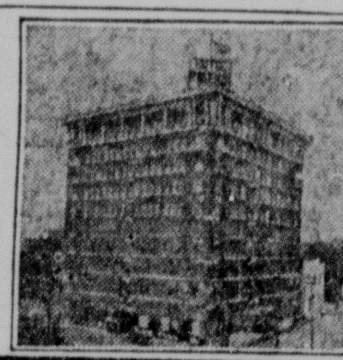

If your eyes are in need of atten-  
tion, have them examined and glasses  
prescribed by one who knows how—  
one who gives his professional atten-  
tion to the eyes and the eyes alone.
